Dear Michael,

My company (The Budd Group) has recently experienced great success thanks to your innovative software, CleanTelligent. CleanTelligent put us far above our competition in a recent bid presentation which landed us a \$1.2 million contract.

A number of other companies bid on this account. After going through several bid presentations, the decision-maker David specifically wanted us to show them CleanTelligent. **David told us that after examining all the bids, no one even compared to our company and the CleanTelligent technology we offer. CleanTelligent was the biggest selling piece in the Budd Group being awarded the \$1.2 million contract.** I thought it might be helpful for you to know a few of the features of CleanTelligent that became main selling points in our winning bid:

- David and his committee were very impressed by how CleanTelligent can track and record inspections. This dramatically improves communication concerning problem areas and allows all history to be neatly recorded for easy analysis.
- CleanTelligent's work order system gave them confidence in our ability to respond quickly to their concerns and to improve downtime.
- **Cleantelligent's job scheduling showed our potential client that we were able to schedule all work in the contract. The fact that they could view the job schedule in CleanTelligent was a big plus in their decision as well.**

This \$1.2 million contract has now been an active client of ours for 120 days and they love using CleanTelligent. We have received lots of positive feedback from both our clients and our employees about how easy and user-friendly CleanTelligent is to use, especially the inspections. Thank you for your time, your software, and the unbeatable service we receive from you and your staff.

Best Wishes,

Mike Fletcher  
Regional Manager
